We run, support, analyze and disseminate citsci

- + 70.000 citizen scientists
- + 60 projects
- + 60 research groups

## BOARD

# White Paper on Citizen Science for Europe

**“ Socientize has been a very welcome and important input in developing a wider strategy for Citizen or Public engagement in European science research activities in Horizon 2020. Several Commission services (including DGs CONNECT, RTD and the JRC) are using it as a reference document, and it is featured in the EC Vademecum for public engagement currently being developed”**
