"Rethinking Public Participation"

CROWDSOURCING SUSTAINABLE DEVELOPMENT

Supporting and initiating CS projects and platforms aimed at tackling the UN SDGs

CS COACHING 3.0

Taking online learning to a new dimension while solving SDG globally – the new O17 Students Challenge

EDUCATING FUTURE CHANGEMAKERS

Students working in multidisciplinary teams to design and deploy solutions for the SDGs

The Competence Center - Citizen Science

Provide resources, expertise and technical know-how to develop, set up, and run next generation citizen science projects

CS PLATFORM	PARTICIPATORY SCIENCE ACADEMY (PWA)
• To promote, coordinate and visualize CS projects in Zurich and beyond • To enable researchers and citizens to plan and implement joint research projects • To provide the tools to build and support a growing community of citizen scientists	Crucial for promoting scientific excellence, will provides citizens and researchers with the knowledge and skills necessary to develop high-level participative work and to enable the development of national and international CS standards.
